WORLDQUYNT.

RESEARCH ANALYST INTERN

WorldQuant develops and deploys systematic financial strategies across a variety of asset classes and global markets. We seek to produce high-quality predictive signals (alphas) through our proprietary research platform to employ financial strategies focused on exploiting market inefficiencies. Our teams work collaboratively to drive the production of alphas and financial strategies – the foundation of a sustainable, global investment platform.

WorldQuant's success is built on a culture that pairs academic sensibility with accountability for results. Employees are encouraged to think openly about problems, balancing intellectualism and practicality. Great ideas come from anyone, anywhere. Employees are encouraged to challenge conventional thinking and possess a mindset of continuous improvement. That's a key ingredient in remaining a leader in any industry.

Our goal is to hire the best and the brightest. We value intellectual horsepower first and foremost, and people who demonstrate an exceptional talent. There is no roadmap to future success, so we need people who can help us create it. Our collective intelligence will drive us there.

THE ROLE:

- Analyzing and adjusting fundamental data, evaluating firm performance based on US GAAP accounting rules and industry conventions
- Identifying key business/economic relations by analyzing various types of information such as company financial statements, conference call transcripts, company websites, etc.
- Establishing procedures that enable timely and efficient procurement and delivery of relevant company information
- Monitoring and parsing other information about companies, e.g. annual report notes, managers' comments or discussions, etc.

WHAT YOU'LL BRING:

- Pursuing a Bachelor's or advanced degree from a leading university in Computer Science, Electrical Engineering, Financial Engineering, or related areas. Ability to work at least 3 days per week, for a minimum of 6 months
- Proficient in Python, knowledge of C/C++ is a plus
- Knowledge and/or work experience in finance, especially in stock market and financial statement analysis
- Knowledge about accounting (especially US GAAP) /natural language processing or experience at a commercial financial data provider/equity research (particularly global equity) is a plus
- Composite background is a plus
- Good interpersonal skills and team player mentality
- Strong work ethic and drive to succeed; and fluent in written English

Position based in Beijing or Shanghai, China.
